

Cats on Deck Launches New 59 Square Foot DeluxePLUS Outdoor Cat Enclosure

Cats on Deck's DeluxePLUS indoor and outdoor cat enclosure provides an incredible amount of kitty territory on a relatively small footprint. It's the ideal enclosure for multiple cat households.

Cats on Deck, a leading developer and manufacturer of legendary lifestyle enrichment outdoor and [indoor cat enclosures](#) has released its newest product for cat owners in search of some more “real estate” for their furry companions: the DeluxePLUS.

Cats on Deck's multi-level DeluxePLUS cat enclosures are a brand new configuration that gives cats a roomy 59 square feet of territory to safely socialize and enjoy an outdoor environment, without the risk of getting lost, wandering into traffic, or being attacked by a dog or wild animal. The enclosures, which are made of sturdy steel wire mesh and lightweight plastic frames that easily snap together, are ideal for households with multiple cats.

In addition, the DeluxePLUS module cat enclosure can be customized with a number of convenient and innovative accessories, including a litter module that keeps the main enclosure clean and hygienic.

“We've already sold a significant number of DeluxePLUS [outdoor cat enclosures](#) since launching them on our online store,” stated Jim Montgomery, the company's Chief Operations Officer. “Our customers love how this new configuration is an ideal combination of our very popular Tower of Meows and Deluxe enclosures.”

Added Mr. Montgomery: “The DeluxePLUS provides an incredible amount of kitty territory in a relatively small footprint. Cats are vertical creatures. So, we focus on levels rather than floor space. For example, most of our kits have two large full shelves which are 13 square feet of territory. In the DeluxePLUS, we have the floor space of almost 33 square feet, add the two full shelves, and then a four level Tower Tree adds another 15 square feet. We're talking 59 square feet distributed on a variety of levels – all on a 26 and a half square foot footprint!”

Cat owners, animal shelters, breeders and pet rescue organizations that are interested in learning more about the new DeluxePLUS outdoor modular cat enclosure from Cats on Deck can visit www.catsondeck.com/price/deluxePLUS/index.html or call toll-free 888.919.CATS (2287).
